

Please be advised that the registrar will be at sea from March 23rd until April 6th or so. However, his uncountable minions will be toiling day and night to collect your entries from the post office as well as noting the order in which the entries arrived. Upon his return, the registrar will immediately acknowledge your entries via email, and then begin arduously recording your entries into the Big Bullship Book, and finally snail mailing your entry patch and drink tickets. So get your entries in early and do not despair if you hear nothing for a couple weeks.

Thanks, PF
