RaceOfficer: Kramer & Wood

Lake Tahoe Dinghy Race Week as of August 04, 2009

El Toro Senior National Championships & Byte CII North American Championships along with Laser Races.

Day 1 August 3rd: Wind came in from the South around 6knots and allowed for two races in the Byte and Laser Divisions and one race for the El Toro.

Day 2 August 4th: With a 1500 start scheduled there was great wind around 11knots out of the Southwest. Great racing for all fleets and multiple courses were raced: triangles, olympic circles and windward leewards with down wind finishes. Three races for Lasers & El Toros and two races for the Bytes.

Day 3 August 5th: Strong winds and cooler temperatures made for great sailing on Tahoe as the Laser sailors received four races on many different courses. One Byte sailor braced the winds and finished two races while the El Toro sailors got in two races on a triangle course.

Day 4 August 6th:

Thanks to all the TYC staff, Staff Commodore Jack McKenna, Rick Wood, Michele Logan of the Byte Fleet and Gordie Nash of the El Toro Fleet for helping put this regatta together and providing an extra finish boat!
